# Introduction

The Charter High School for Law and Social Justice believes that emergencies in schools must be addressed in an expeditious and effective manner. Schools are at risk of acts of violence, natural and manmade disasters. To address these threats, the State of New York has enacted the Safe Schools Against Violence in Education (SAVE) law. Project SAVE is a comprehensive planning effort that addresses prevention, response, and recovery with respect to a variety of emergencies in schools.

The Charter High School for Law and Social Justice (CHSLSJ) District-Wide Safety Plan was developed by CHSLSJ leadership in consultation with students, families, staff, local police, and school safety personnel. Charter High School for Law and Social Justice Charter School ensures the campus has a completed Building-Level Safety Plan.

Our goals in creating and implementing our District-Wide Safety Plan are:

- To create an atmosphere and set of practices that prevent violence or unsafe conditions.
- To create/implement a plan that will minimize the effects of serious violent incidents and emergencies.
- To have an effective response plan for all predictable safety concern situations.
- To produce a document that can be used as the basis for informing and training all school constituencies in regard to keeping our school safe.

## **Planning Assumptions and Limitations**

Stating the planning assumptions allows the school to deviate from the plan if certain assumptions prove not to be true during operations. The District-Wide Safety Plan is established under the following assumptions:

- The school community will continue to be exposed and subject to threats/hazards and vulnerabilities described in the Threat/Hazards Assessments Annex, as well as lesser threats/hazards that may develop in the future.
- A major disaster could occur at any time and at any place. In many cases, disseminating warnings to the public and implementing increased readiness measures may be possible; however, most emergencies occur with little or no warning.
- A single incident could occur at any time without warning, and the employees of the school affected cannot and should not wait for direction from local response agencies. Action is required immediately to save lives and protect school property.
- There may be a number of injuries of varying degrees of seriousness to faculty, staff, and/or students. The rapid and appropriate response can reduce the number and severity of injuries.

- Outside assistance from local fire, law enforcement, and emergency services will be available in most serious incidents. Because it takes time to request and dispatch external assistance, it is essential for the school to be prepared to carry out the initial incident response until emergency responders arrive at the incident scene.
- Actions are taken before an incident can stop or reduce incident-related losses.
- Maintaining the School District-Wide Safety Plan and providing frequent opportunities for training and exercising the plan for stakeholders (staff, students, parents/guardians, first responders, etc.) can improve the school's readiness to respond to incidents.

### **Distribution of the Safety Plan**

8 NYCRR Section 155.17 (e)(3) mandates that a copy of the ERP and any amendments shall be filed with the appropriate local law enforcement agency and with the New York State Police within thirty days of adoption.

## **Safety**

CHSLSJ Deans perform a variety of non-teaching duties in overseeing student activities in the school building, on school grounds, and outside the building. Their training includes participation in the annual violence prevention program conducted during the Fall and annual Sexual Harassment and Child Abuse programs during faculty meetings. Teachers, teaching assistants, and aides who are assigned hall monitor duty receive instruction in maintaining a safe environment from the Assistant Principal of Culture.

Security cameras are in place in the building. All staff are issued identification cards and keys that allow entry to the building.

An assistant Dean and additional Deans rotate at the lobby desk where guests are interviewed/viewed as would-be visitors before allowing entry to the building. A valid license or passport is required for entry. Once screened, a visitor pass, with name, time of entry, is given to the guest. The front desk calls in the person who the visitor is meeting to provide further directions. Typically majority of visitors go to the main office to meet with their assigned guest.

Classroom doors are locked and can be opened from the inside. Children who arrive late and/or leave early are signed in/out by a parent or guardian permission and are swiped in or out by at front desk. All grounds are monitored by assigned staff when they are in use during the school day. The hallways of the building are monitored by assigned staff. The cafeteria is monitored by teachers and teaching assistants as well as by the assigned lunch duty personnel.

Incident Command System protocols are followed during special events. Assigned personnel are issued walkie-talkies and flashlights for safety and security. Vests and/or event ID tags are issued for easy recognition. All district building Emergency Response Plans are deposited with the local and state police and local fire department. Members of the local police and fire departments and Emergency Medical Service (EMS) are participants on the District-wide and individual School Safety Teams. All of the departments are participants on the school's Emergency Response

Team. The police department utilizes district facilities for practice rescue drills. The district's policies and procedures for responding to acts of violence by students, teachers, other school personnel, and visitors to the school are found in the Code of Conduct and Education Law. Depending on the situation, a lockdown may be put into effect and/or police will be notified.
